

M103 SIGNALING DEVICE

Signaling device for fire or toxic gas protection applications, with led illumination and buzzer, and very low current draw

APPLICATION

The M103 signaling device: can be manufactured with three different texts:

M103ED -"Extinguishant released- Do not enter"

M103FG - "Fire in parking"

M103GT – "Toxic gases – Do not enter"

TECHNICAL SPECIFICATION

Enclosure:	Termoplastic ABS.
Light diffuser :	Methyl methacrylate.
IP grade protection:	IP-51
Size:	235 x 115 x 60 mm.
Power supply:	20 a 30Vcc
Current drain @ 24 V:	60 mA
Operating temperature:	-10°C a 50°C
